

MOHAMMAD USMAN

Full Stack Developer · React · Next.js · Node.js · NestJS · 4+ Years

muhammadusmanmuzzamil@gmail.com | +92 336 4248894 | Lahore, Pakistan · Remote | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Versatile Full Stack Developer with 4+ years of experience delivering end-to-end web solutions — pixel-perfect React/Next.js frontends to secure, scalable Node.js/NestJS backends. AWS certified, active GitHub contributor, and proficient across the complete JavaScript/TypeScript stack including Redis, PostgreSQL, and Docker. Consistently delivered 60% user engagement increase, 50% DB load reduction, 35% faster page loads, and 95+ Lighthouse scores.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, TypeScript, Redux Toolkit, React Query, Tailwind CSS, Framer Motion
Backend:	Node.js, NestJS, Express.js, REST APIs, GraphQL, WebSockets, Apollo Client, Apollo Server
Messaging:	RabbitMQ, Event-Driven Architecture, Async Queues
Auth:	JWT, OAuth2, Role-based Authorization, Swagger/OpenAPI
Databases:	PostgreSQL, MongoDB, MySQL, Redis, Firebase
Testing:	Jest, React Testing Library, Supertest
DevOps:	Docker, AWS S3, Git/GitHub, CI/CD, Vercel
Tools:	Jira, Linear, Trello, Bitbucket, Postman, Figma, VS Code

CERTIFICATIONS

• TypeScript — Complete Developer Guide	— Udemy	2020
• Node.js & React — Full Stack Development	— Coursera	2022
• AWS Certified Cloud Practitioner	— Coursera	2023

PROFESSIONAL EXPERIENCE

Senior Software Developer · Upclude

Jan 2025 – Present · Remote

- Architect and ship full-stack features — scalable React/Next.js TypeScript frontends + secure NestJS REST APIs.
- Manage complex state and data flows in React while designing Swagger-documented, validated NestJS services.
- Implement end-to-end JWT authentication, authorization, and data security across client and server layers.
- Integrate RabbitMQ for async messaging and event-driven communication between decoupled backend services.
- Optimize full-stack performance** via lazy loading, memoization, query optimization, and Redis caching — 95+ Lighthouse.
- Write Jest, React Testing Library, and Supertest tests covering unit, integration, and E2E scenarios.

Software Engineer · SensViz

Aug 2023 – Dec 2024 · Lahore

- Delivered full-stack contributions across GrantMatch and Sipplytics — resolving 180+ tickets end-to-end.
- Built grantmatch.ai landing page and customizable map-based dashboard with advanced search for Sipplytics.
- Increased user engagement by 60% and reduced page load times by 35%** through full-stack optimizations.
- Integrated Stripe (45% faster transactions) and Redis caching (50% less DB load)** for improved performance.
- Managed WebSocket pipelines, third-party API integrations, and Swagger documentation across both products.

Full Stack Developer · XnRel

Feb 2021 – Jul 2023 · Lahore

- Built full-stack platforms including SIS portals and pizzahut.co.uk — React UI plus Node.js/NestJS backend.
- Increased order completion by 32%, cut DB query time by 40%, improved backend response time by 65%.**
- Implemented secure JWT auth reducing unauthorized access by 85%.** Mentored junior developers on full-stack best practices.
- Designed reusable React components and RESTful APIs serving multiple client-facing features simultaneously.

EDUCATION

Bachelor of Science — Computer Science · University of Gujrat

2016 – 2020 · Gujrat, Pakistan

PROJECTS

GrantMatch.ai — Full Stack Grant Discovery SaaS |

grantmatch.ai

React.js · Next.js · TypeScript · Node.js · NestJS · PostgreSQL · Redis · Stripe

End-to-end SaaS platform helping nonprofits discover and apply for grants — built from frontend to backend.

- Built Next.js/TypeScript frontend (landing page + dashboard) and NestJS backend APIs from scratch.
- Integrated Stripe subscription billing (45% faster transactions) and JWT authentication across full stack.
- Achieved 60% user engagement increase through optimized React UI and Redis-cached backend (50% less DB load).

Sipplytics.com — Full Stack Supply Chain Analytics |

sipplytics.com

React.js · TypeScript · Node.js · NestJS · PostgreSQL · Redis · Google Maps API · WebSockets

Full-stack B2B SaaS providing real-time supply chain visibility with interactive dashboards and analytics.

- Developed complete React frontend (map dashboard, advanced search) and NestJS backend APIs end-to-end.
- Implemented WebSocket real-time data updates and Redis caching — reducing DB load by 50% and load times by 35%.
- Built Swagger-documented REST APIs and reusable React component library serving the entire product.

PizzaHut UK — Full Stack Ordering Platform | React.js · Node.js · Express.js · PostgreSQL · JWT · REST

pizzahut.co.uk

APIs

High-traffic full-stack food ordering platform with customer-facing React UI and Node.js backend.

- Built responsive React frontend and Node.js/Express REST APIs supporting thousands of concurrent users.
- Implemented zipcode-based search and custom order flow — increasing order completion rates by 32%.
- Optimized DB queries (65% faster) and implemented JWT auth (85% fewer unauthorized access attempts).

EMS — Full Stack Employee Management System |

github.com/mohammad-usman-muzzamil

React.js · TypeScript · Node.js · NestJS · PostgreSQL · JWT · Tailwind CSS

Enterprise EMS covering employee records, attendance, payroll, and performance — built full stack.

- Architected React/TypeScript frontend with role-based dashboards and NestJS backend with secure REST APIs.
- Implemented JWT authentication with Admin/HR/Employee role separation and full audit logging.
- Built Redis-cached payroll and attendance reporting reducing generation time by 60%.

KEY ACHIEVEMENTS

60%

User Engagement Up

50%

DB Load Reduced

35%

Page Load Faster
